

## 2021 June Research programme "Future Challenges in the Nordics" stage 2

Ansökningsomgången är öppen: 15.05.2021 - 18.06.2021

Denna förhandsgranskning har skapats: 03:27 17.06.2021

**OBS!** förhandsgranskning av detta formulär är endast avsedd för att ge dig en översikt över de frågor som vi ställer till de sökande.

Du ska inte skriva ut och skicka oss detta formulär. Vi godkänner **endast** ansökningar som fyllts i och skickats till oss **elektroniskt via sökandeportalen**.

Vi förbehåller oss också rätten att ändra på frågorna i formuläret under ansökningstidens lopp och därmed kan vi inte garantera att formuläret som du fyller i kommer att vara identiskt med denna kopia.

## Steg 1/5 Basic information

### University/Higher Education Institution (HEI)/Research Institute **(Obligatorisk)**

The name of the university, higher education institution or research institute to which the project leader is affiliated.

### Project leader: name and academic degree **(Obligatorisk)**

### Field of research **(Obligatorisk)**

Antal tecken: 0 av max 500

The field or fields of research in the project.

### The title of the project **(Obligatorisk)**

Antal tecken: 0 av max 200

**A short summary of the project (Obligatorisk)**

Antal tecken: 0 av max 700

**Scholars in the project (Obligatorisk)**

Antal tecken: 0 av max 1000

The name, academic degree, university and field of research of the scholars in the project. If you do not know the name write N.N., academic degree and field of research.

**The project duration (Obligatorisk)**

Start and end date (for example 1.1.2022-31.12.2025)

**Slutdatum**

**The total applied amount (Obligatorisk)**

A specified budget must be attached separately as an annex. The maximum budget is 1 million Euro. Please enter the applied amount in Euros.

---

## Steg 2/5 Project plan

**Purpose and goals (Obligatorisk)**

Antal tecken: 0 av max 3000

Describe the purpose and goals for the project. Describe also previous research on the same subject and how the project relates to it nationally and internationally.

**Problem definition, research questions and multidisciplinary (Obligatorisk)**

Antal tecken: 0 av max 5000

If the project is multidisciplinary, explain how.

**Research methods and research material (Obligatorisk)**

Antal tecken: 0 av max 7000

Describe the research methods that will be used and how they will answer the research questions. Describe the research material and how it will be collected and used and whether it will be made openly accessible.

**Working plan and schedule (Obligatorisk)**

Antal tecken: 0 av max 4000

Describe the research tasks and how they will be performed and how they are linked. Describe the timetable for the implementation of the project and the project milestones.

**Research group and cooperation (Obligatorisk)**

Antal tecken: 0 av max 4000

Describe the researchers' qualifications for the project. Describe how the project is related to the project leader's and research group's previous research. Describe the local, national and/or international research environment, including research infrastructures. State national and international cooperation partners who are key to the implementation of the project, as well as their qualifications. Describe what will be achieved through the collaboration.

**Expected result (Obligatorisk)**

Antal tecken: 0 av max 5000

Describe the significance of the project nationally and internationally. Describe the scientific and societal significance and impact of the expected results and the extent to which decision-makers will be able to apply and utilise the results.

**Ethical review of the research (Obligatorisk)**

Antal tecken: 0 av max 1000

Answer yes or no. Justify your answer. If the answer is **no**, write why an ethical review does not need to be carried out. If the answer is **yes**, describe why an ethical review must be carried out and if it hasn't been done, when it is to be carried out.

**Risk assessment (Obligatorisk)**

Antal tecken: 0 av max 2000

Any risks that may arise in the project, including changes to the project plan, and the potential consequences of these risks and how they will be managed.

---

## Step 3/5 Previous grants and simultaneous applications

**Has the project earlier received grants from other funders? (Obligatorisk)**

- Yes
- No

Nedanstående fråga kan endast besvaras beroende på vad du svarat på frågan: "Has the project earlier received grants from other funders?"

**Previous grants from other funders for this project**

Year	Funder	Sum

## Steg 4/5 Appendix

### **Specified budget (Obligatorisk)**

The detailed budget should include a description of how the means will be spent. Besides wages and indirect employee costs it is possible to apply for means for open access publishing, travels, internal project seminars, material costs, fees for auxiliary labour and other operating costs. The costs must be specified and motivated. The researchers in the project can be financed up to 100 per cent working hours. The sum for the overhead to cover university costs (20 per cent of the wages and indirect employee costs) must be included in the budget. The total budget cannot exceed 1 million Euros.

### **The CV of the project leader (maximum three pages) (Obligatorisk)**

Dra-och-släpp eller klicka för att lägga till en fil.

### **Publication list of the project leader and the researchers in the project (Obligatorisk)**

Project leader maximum ten publications and other researchers maximum five publications each.

Dra-och-släpp eller klicka för att lägga till en fil.

### **Publication and Communication plan for the project (Obligatorisk)**

The plan should include a description of how the research results will be made accessible and communicated to the scientific community, decision-makers and the public.

### **Approbation (Obligatorisk)**

The application is to be approved by the grant administrator and signed by the project leader and

head of department or equivalent.

Dra-och-släpp eller klicka för att lägga till en fil.

### **Tables, diagrams and pictures**

Dra-och-släpp eller klicka för att lägga till en fil.

### **Source reference and bibliography**

Dra-och-släpp eller klicka för att lägga till en fil.

### **Ethics report**

If there has been an ethical review of the research, the ethics report must be attached. The funders of the research programme have the right to claim ethical review of the research that is financed.

## **Steg 5/5 Terms and conditions**

### **Terms and conditions of management of the research programme and granting of funding (Obligatorisk)**

- The research programme's steering committee uses the information provided by the applicant in his/her application to prepare decisions on funding. As part of this process, the steering committee may pass on this information to external experts. The steering committee also have the right to provide information about the application to other organisations that finance research projects.
- The steering committee for the research programme does not justify its decisions on funding and the applicant shall not have the right to access the material arising from the preparation of funding decisions or to be informed about which persons have processed the application.
- The financial backers of the research programme shall have the right to archive the information for statistical, research and historical purposes.
- In the event that the project is granted funding:
  - the recipient shall make available his/her results, methods and tools in the manner

prescribed by the research programme.

- the recipient shall report on the use of the funds.

- the financial backers of the research programme shall have the right to publish information about the funding, including the name of the recipient, the purpose of use of the grant and other information from the application.

- the recipient shall, in all his/her communication, notify that he/she has received support from the research programme in the manner prescribed by the financial backers.
